

“THANK YOU FOR YOUR INTEREST IN OUR ACADEMY AND WE LOOK FORWARD TO YOUR SUCCESS.”

We are excited about the prospect of helping you/your child achieve the many benefits of Taekwondo. Self-defense, mobility, cardiovascular conditioning, strength, self-discipline, and self-confidence are only a few of the many advantages you can gain through classes at our academy!

Before your next lesson, please think about the program. If you are married, talk about it with your spouse. If you are enrolling your child, include him or her in the conversation with the other parent. The questions listed should give you a framework for discussion.

Please answer these questions honestly to yourself before your next lesson. At that time the program director will finalize your enrollment, explain more about how the program works and assist you in setting goals for you/your child's progress.

Sincerely,

Master James Carswell
6th Degree Black Belt
Master Instructor
